A Message From The Administrator

Talking about the hero's that work here at Morris View gets me emotional. The selflessness and dedication that each staff member has shown towards our residents is evident now more than ever. During these times of uncertainty this facility has shown immeasurable strength and bravery. At a time where the world is running you run here, where everyone is scared you are brave, during the these times of uncertainty you are certain. We are reminded that we are here for the health and well being of each resident. We appreciate everything you do. Keep up the terrific work !

I would like to take this opportunity to recognize the Recreation Department for all of their efforts to ensure that our residents feel loved and supported by their families via Facetime and Outdoor Patio Visits and Personal Visits. Connecting residents with their families is essential for their health and wellness. They are doing a amazing job and I cannot thank them enough.

To the survivors, we are grateful for your strength to fight this terrible disease. To the residents we have lost, your memories will be with us each and everyday. You will not be forgotten. To the families of those we have lost, our hearts go out to you and your loved ones during this time.

Finally, we ask everyone to remember to stay healthy, positive and strong. We will get through this together.

Sincerely,

Ralph

We strive to keep an open line of communication between our residents, families and members of our team.
